---

Dear Vice Mayor Jan Devereux,

It is unfair and unjust to single out Israel in this City Council Vote. As the home of 2 of the world's leading educational institutions, your tactics can damage the development of new technology by making it difficult for Israelis to work with Harvard and MIT.
It is a well know fact that Israel is the source of enormous technological innovation that jump starts work at these two institutions. There is no other country besides the US that could replace Israel in it contribution to our economy. Your city is on a slippery slope of moving to censorship that is as repugnant to serious scholars as the "fake news" that the supports of the bill scorn.

The Cambridge City Council should not abdicate its responsibilities to an interest group whose purpose is to demonize Israel. Any resolution of this kind deserves a full and fair public hearing, including inviting experts and interested parties to weigh in openly before action is taken.

Singling out Israel and HP, amongst all the nations, companies and conflicts in the world, and holding them to a unique ethical standard raises troubling issues about the Cambridge City Council. Thousands of American companies are working overseas and engaged in transactions that can be tied to questionable human rights practices; including numerous companies with Cambridge contacts.

In this instance, the Council is overlooking scores of other situations and electing to support dubious and largely unexamined claims against Israel made by an outside organization. If the Cambridge City Council elected to adopt a foreign policy that it applied without prejudice to nations and companies around the world, the issue of an ethical double standard would not be raised.

The BDS movement is detrimental to achieving peace. The establishment of a Palestinian state is a goal we share but will not be realized by extreme and deceptive claims that belie the hard reality on the ground. There are many people of goodwill, who are working to bridge the divide between Israelis and Palestinians. Boycotts, like the one under consideration, undermine these peacemakers, fuel polarization, and strengthen the hands of those who reject co-existence.

Regards,
Audrey Kadis
